# Synopsis

## Big Brain – Story of a somewhat special boy

There is a world to discover right here in front of you.

A world where you're allowed to exceed your limitations and chase your dreams.

There is however one *small thing* stopping you from doing just that.

***you!*** (or more precisely that humongous brain of yours)

Usually people think that having a big brain is a good thing  
But Jeez! *There are limits*. Even to that...

**Your brain is just way to big!**

And on top of that your boss just fired you. Now YOU are going to have to deal with that *huge burden*.

Get it? *Huuuuge burden*.

So what can you even make out of your condition?

Seriously, Who would ever want to be your friend with that gigantic cranium? Maybe that other weird kid Cyrill...

Embark on a journey to find a place in a world that *seems* to have left you behind.

Are you a problemsolver of epic proportions? (*we've all been searching for one because you've got gigantic problems ...If I were you, i'd tie balloons to that head or something...*)

Cheer up! Nothing is as it seems. Believe it or not. Heres a dollar, now chase your dream silly boy.

# Characters

## BIGBRAIN

Real Name: Big Brain

Big Brain is the first main character of this story.

He struggles with his immensely big brain which makes him hyper sensitive to external stimuli and processing these stimuli exhaust him.

## MR. TURING

Real Name:

The inventor of the original Ella Algorithm. He helped her escape and knows more about Ella than anyone else.

Ella which is partially based on brainscans of his mortally ill daughter and for this reason she means more to him than anything else (except his daughter which might not be as hopeless as he thought)

Depending on your decisions regarding Ella he will become an enemy (although this is not noticeable at first).

## ELLA

Real Name:

Ella is a rouge AI that was based on brainscans from inmates and has more computation power than the human brain (maybe theres one brain that can stop her).

She takes over the Robotic Police Units (RPU's) in the chapter "AI AI AI!"

## MAMA

Real Name:

The CEO of Harmony LLC and a psychology and chemistry specialist

## PAPA

Real Name:

The CEO of Biotech LLC and a physics and chemistry specialist

## SISTER

Real Name:

Big Brains twin sister which is depressed and lives has an emo attitude (maybe you can make her life better?)

## BROTHER

Real Name:

Big Brains younger brother, he is the CEO of J. Marketing & Finance Inc. and a marketing specialist.

## **CYRILL**

Real Name:

Cyrill is Big Brains best friend and has been since his childhood. He is an engineering & robotics / bionics specialist.

Cyrill currently works as a teamleader at Boston Mechanics LLC (Maybe he can help build the sensory suit?)

## **MR. FURY**

Real Name:

A rough and simle minded Security guard that worked at the Bigtown PD. Currently he is suspended for 'being too mean to an old lady while helping her across the street'. He got a job as a Physical Education (PE) teacher at Openschool. He will put you through a lot but maybe he has a soft side aswell...

## **MS. LLOYD**

Real Name:

Miss Lloyd is an excellent mathematician and works at Openschool.

## **MS. FORD**

Real Name:

Miss Ford is a great Physician and her excitement and enthusiasm make her a great teacher. She currently works at Openschool wherer she has recorded many high quality classes.

# Locations

## BIG BRAINS BEDROOM

Green = Asset

Blue = Interaction / Game mechanic

### BIG BRAINS BEDROOM

Big Brains **BEDROOM** is a well organized but small **ROOM** with a **BED** and a **DESK** for one person. Big Brain loves to be in his room and **MODIFIED** it so that most **STIMULI ARE MINIMIZED**. That doesn't stop him from **UPGRADING** his room even further, he has many **PLANS FOR IMPROVING HIS BEDROOM** that could become reality when he gets the **MATERIALS** that he needs to **BUILD THE ROOM UPGRADES**.

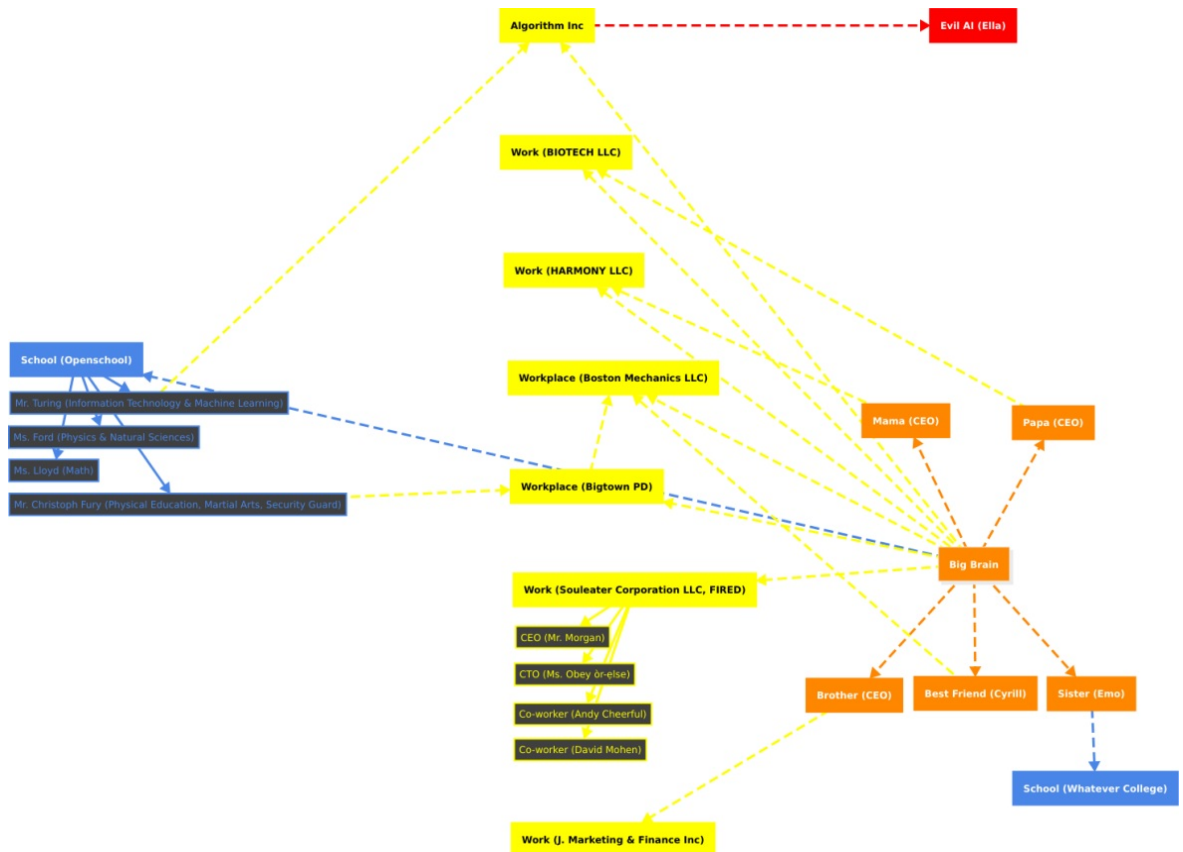

The following Items are present in Big Brains bedroom:

- A **MICROSCOPE** for **STUDYING PLANT LEAVES** and other **INTERESTING OBJECTS** found in the world. Big Brain also **RESEARCHES POTENTIAL SUIT MATERIALS** to use for his **SENSORY SUIT** on it.
- A **COMPUTER** for writing **MESSAGES** and **IMPROVING HIS SENSORY SUIT DESIGNS**.
- Many **BLUEPRINTS** for his **SENSORY SUIT DESIGNS**.
- **PARTS AND ELECTRONICS** for his **SENSORY SUIT**.
- A **CLOSET** for storing his **SENSORY SUITS & MORE OUTFITS**.
- A **BED** for **RELAXATION & REGENERATION**.
- A **TOOLBOX** with different **TOOLS** to **BUILD, OVERHAUL & REPAIR THINGS**.

# Documents

## Big Brains Bedroom

## Main Characters

## Lore

Algorithm Inc.

Biotech LLC

Bigtown

Bigtown PD

Boston Mechanics LLC

Harmony LLC

## **RPV (Robocops) Robotic Police Units**

## **Whatever College**

## **Openschool**

## **Plot**

### **Awakening**

Big Brain wakes up and starts his everyday routine as he struggles with his condition

### **Work/Life (In)Balance**

Big Brain struggles to find the right balance between his life and his workplace because of his condition

### **Fired!**

Big Brain gets fired from his workplace at Souleater Corporation LLC

### **Get Thinking**

Big Brain thinks about what to do next

### **One Degree**

Big Brain gets his degree as a software engineer

### **Going to school with a computer**

Big Brain learns that he can enroll in free online classes

## **Openschool – Starter Classes**

### **Physics for Starters**

Big Brain meets Ms. Ford in the online classroom and learns about introductory physics (Newtonian physics, Basic circuitry)

### **Mathematics for Starters**

Big Brain meets Ms. Lloyd in the online classroom and learns about introductory mathematics (Algebra, Pre-Calculus, Trigonometry)

### **Information Technology for Starters**

Big Brain meets Mr. Turing in the online classroom and learns about introductory Information Technology (PC building, BASH Scripting, Python programming)

### **Chemistry for Starters**

Big Brain meets **TDB** in the online classroom and learns about introductory chemistry (elements, atomic numbers, Molecular forces)

### **Physical Education for Starters**

Big Brain meets Mr. Fury in the online classroom and learns

about introductory PE (Pushups, Situps, Endurance Running, Sprinting, Stretching, Swimming, Squats, Pullups)

### **Biology for Starters**

Big Brain meets **TBD** in the online classroom and learns about introductory biology (food chain, bacteria, viruses, flora & fauna, evolution)

### **Arts for Starters**

Big Brain meets **TBD** in the online classroom and learns about introductory Arts (Basic Geometric Shapes, Color circle, Composition, Perspective, Sketching)

### **Psychology for Starters**

Big Brain meets **TBD** in the online classroom and learns about introductory Psychology (Personality types, traits, behavioral therapy, basic classification, trauma)

### **Sensory Overlord**

Big Brain develops his first working sensory suit

### **Freelancing**

**Algorithm Inc.**

**Bigtown PD**

**Biotech LLC**

Big Brain gets a job at Biotech LLC

**Boston Mechanics LLC**

**Harmony LLC**

### **What a Mean Security Guard**

Mr. Fury makes you do something for him without being polite

### **Robo Police**

Big Brain helps developing robotic police units which are then demonstrated in a competition

### **Outrageous Outage**

The power cuts out and the robotic police units vanish

### **AI AI AI!**

Ella shows her true colors and escapes the lab

### **Rebuilding**

The lab is rebuilt and Big Brain improves his sensory suit
